Contents of Volume 314

Vol. 314, Nos. 1–4 **November 25, 2005**

Repeated surveys by acoustic Doppler current profiler for flow and sediment dynamics in a tidal river
R. L. Dinehart and J. R. Burau 1
Hydrochemical assessment of the Rochefort marsh: Role of surface and groundwater in the hydrological functioning of the wetland
B. Ladouche and P. Weng 22
Reply to the comments of Sutcliffe to the paper Y. A. Mohamed et al. (J. Hydrol. 289 (2004) 145–169)
Y. A. Mohamed, W. G. M. Bastiaanssen and H. H. G. Savenije. 43
Comment on 'Spatial variability of evaporation and moisture storage in the swamps of the upper Nile studied by remote sensing technique' by Y. A. Mohamed et al., 2004. Journal of Hydrology 289, 145–164
J. V. Sutcliffe 45
Regional flow duration curve estimation in small ungauged catchments using instantaneous flow measurements and a censored data approach
I. A. Niadas. 48
A three-dimensional analytical model to simulate groundwater flow during operation of recirculating wells
J. Huang and M. N. Goltz 67
A flexible modeling package for topographically based watershed hydrology
J. Wang, T. A. Endreny and J. M. Hassett 78
Applying fuzzy theory and genetic algorithm to interpolate precipitation
C. L. Chang, S. L. Lo and S. L. Yu 92
High resolution distributed atmospheric-hydrological modelling for Alpine catchments
H. Kunstmann and C. Stadler. 105
Managing releases from small upland reservoirs for downstream recharge in semi-arid basins (Northeast of Tunisia)
M. Zammouri and H. Feki 125
Identifiability of distributed floodplain roughness values in flood extent estimation
M. G. F. Werner, N. M. Hunter and P. D. Bates 139
Calibration and validation of neural networks to ensure physically plausible hydrological modeling
G. B. Kingston, H. R. Maier and M. F. Lambert 158
Seasonal and spatial patterns of erosivity in a tropical watershed of the Colombian Andes
N. Hoyos, P. R. Waylen and Á. Jaramillo. 177
An investigation of flows and losses within the alluvial sands of ephemeral rivers in Zimbabwe
M. G. Mansell and S. W. Hussey 192
Reply to "Comment on 'Comparison of static-feedforward and dynamic feedback neural networks for rainfall-runoff modeling' by Y.M. Chiang, L.C. Chang, and F.J. Chang, 2004. Journal of Hydrology 290, 297–311"
F.-J. Chang, L.-C. Chang and Y.-M. Chiang 204
Comment on 'Comparison of static-feedforward and dynamic-feedback neural networks for rainfall-runoff modeling' by Y.M. Chiang, L.C. Chang, and F.J. Chang, 2004. Journal of Hydrology 290 (3–4), 297–311
A. Jain 207
Simulation of integrated surface-water/ground-water flow and salinity for a coastal wetland and adjacent estuary
C. Langevin, E. Swain and M. Wolfert. 212
A time domain transmission sensor with TDR performance characteristics
J. M. Blonquist Jr., S. B. Jones and D. A. Robinson 235
Interaction of groundwater and shallow lakes on outwash sediments in the sub-humid Boreal Plains of Canada
B. D. Smerdon, K. J. Devito and C. A. Mendoza 246

doi:10.1016/S0022-1694(05)00507-X

Temporal persistence of spatial patterns in throughfall
R. F. Keim, A. E. Skaugset and M. Weiler 263
Recent advances in wavelet analyses: Part 1. A review of concepts
D. Labat 275
Recent advances in wavelet analyses: Part 2—Amazon, Parana, Orinoco and Congo discharges time scale variability
D. Labat, J. Ronchail and J. L. Guyot 289
Streamflow trends in Switzerland
M.-V. Birsan, P. Molnar, P. Burlando and M. Pfaundler 312
